**Keywords:** Type your keywords here, separated by semicolons .

---

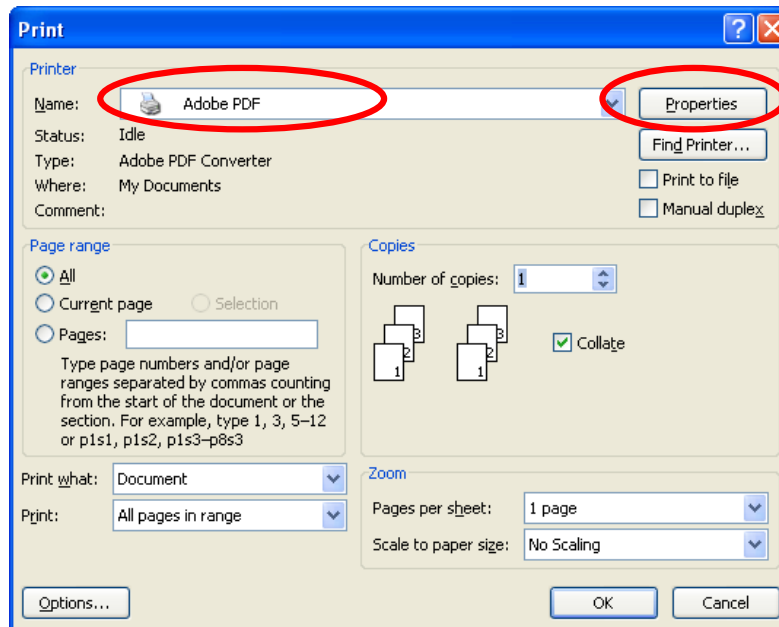

**1. Main text**

Here introduce the paper, and put a nomenclature if necessary, in a box with the same font size as the rest of the paper. The paragraphs continue from here and are only separated by headings, subheadings, images and formulae. The section headings are arranged by numbers, bold and 10 pt. Here follows further instructions for authors.

**Nomenclature**

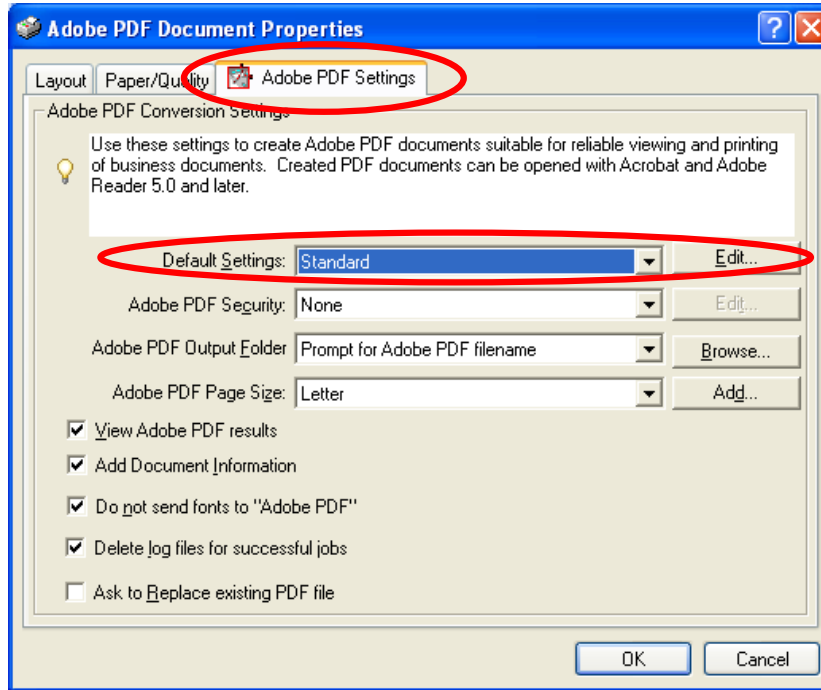

A	radius of
B	position of
C	further nomenclature continues down the page inside the textbox

Use the command CTRL + P. Select the option “Adobe PDF”.

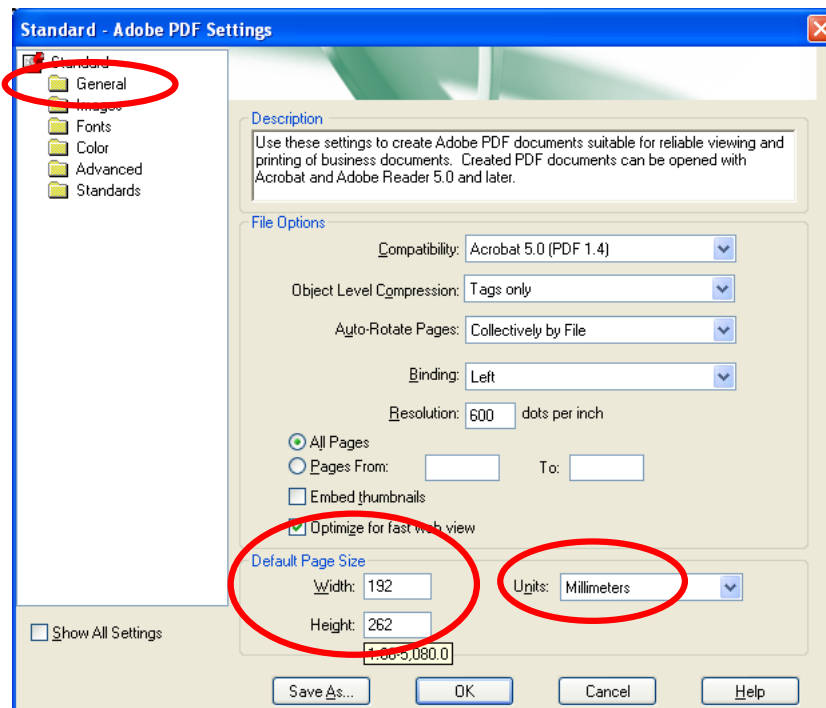

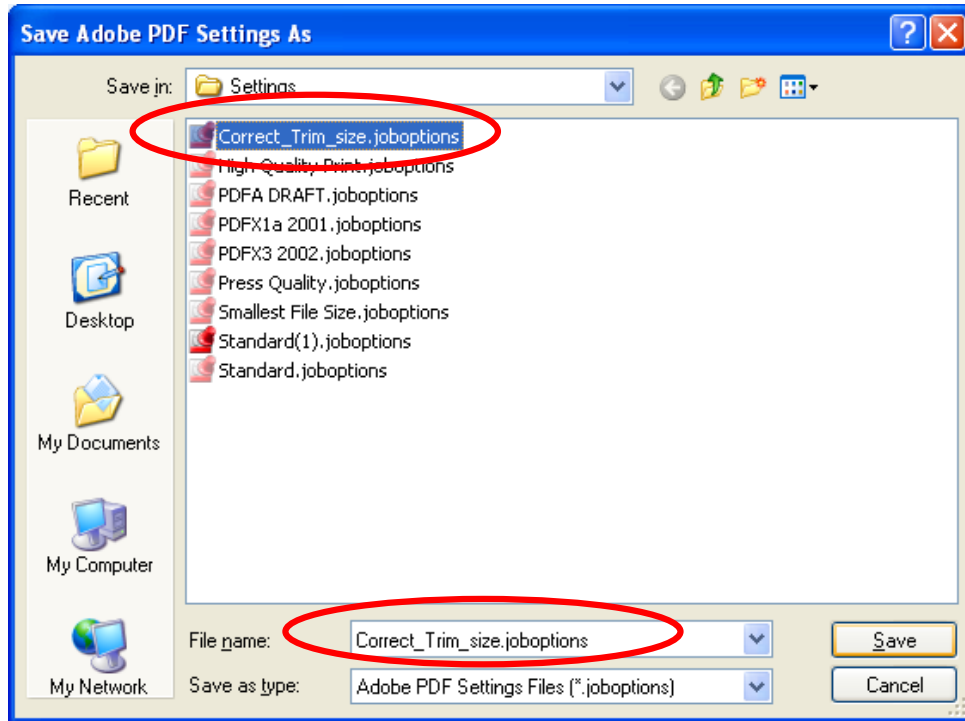

Click on the “Properties” tab appearing on the upper right side.

Select the tab “Adobe PDF Settings”. Within the “Default Settings” field, select the option “Standard”. Click on the “Edit” tab appearing on the right side.

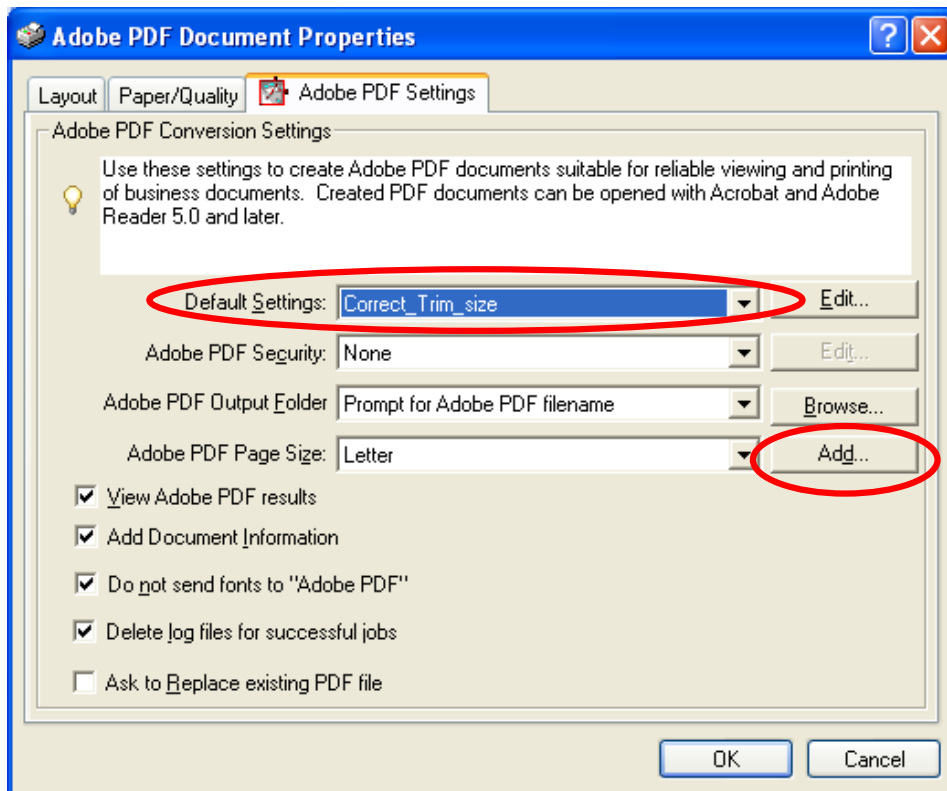

Under the “General” link, change the Default Page size to “192 X 262” mm. Change the units to “millimeters (mm)”. Click on the option “Save As” appearing at the bottom of the box. Change the name to “Correct\_Trim\_size.joboptions”.

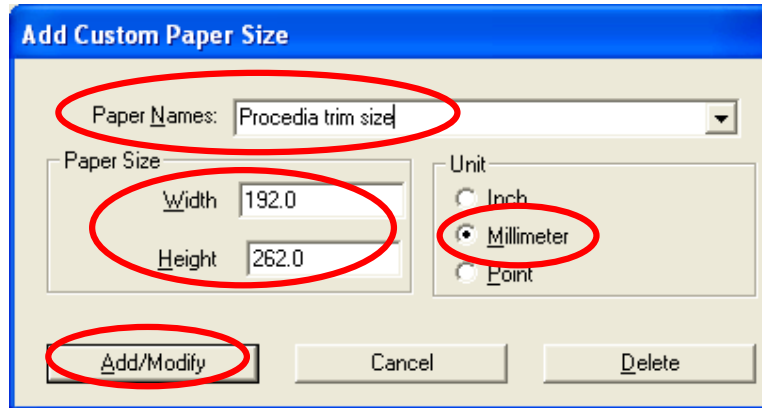

Select the customized joboption “Correct\_Trim\_size.joboptions”.

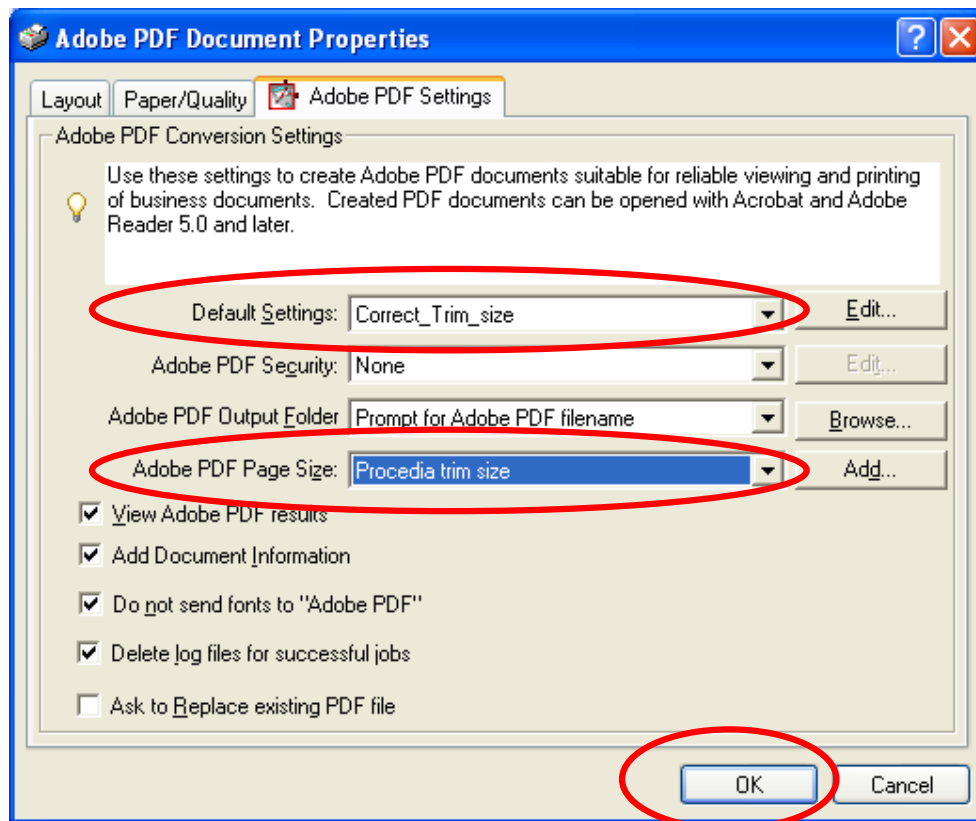

Click on the button “Add”.

Change the “Paper Names” to “Procedia trim size” and change paper size to “192 X 262”.

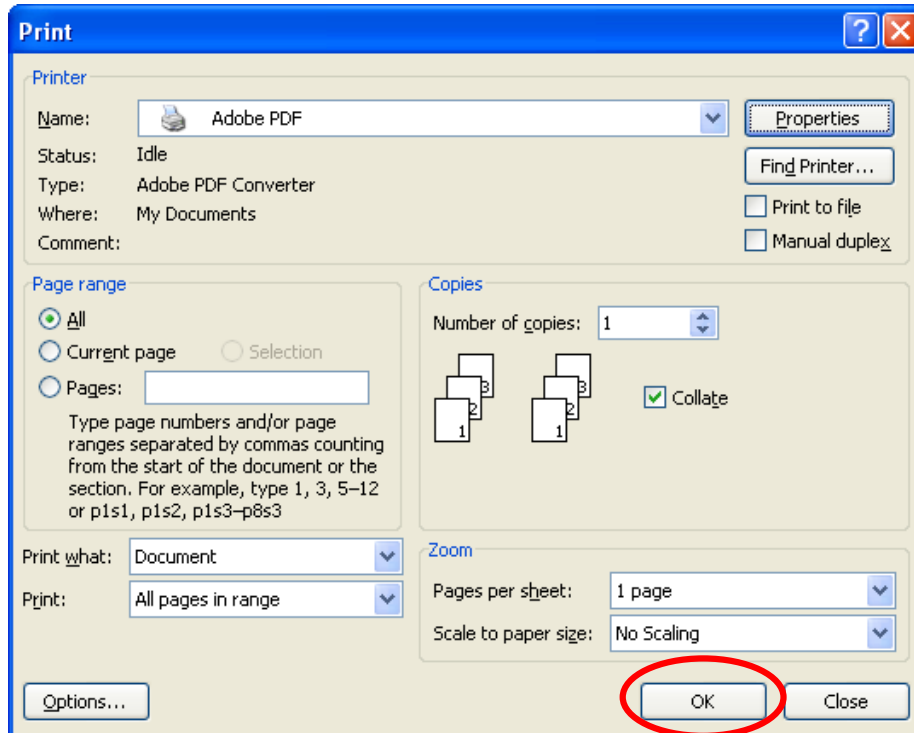

Click on "Add/Modify" button.

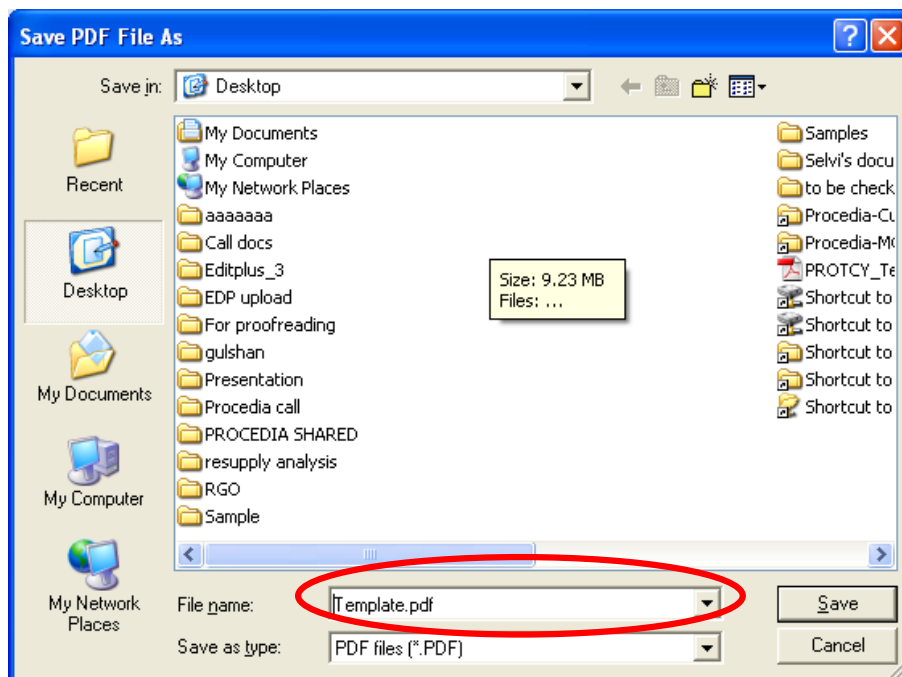

Within the "Adobe PDF Page Size" drop-down menu, select the customized "Procedia trim size" option.

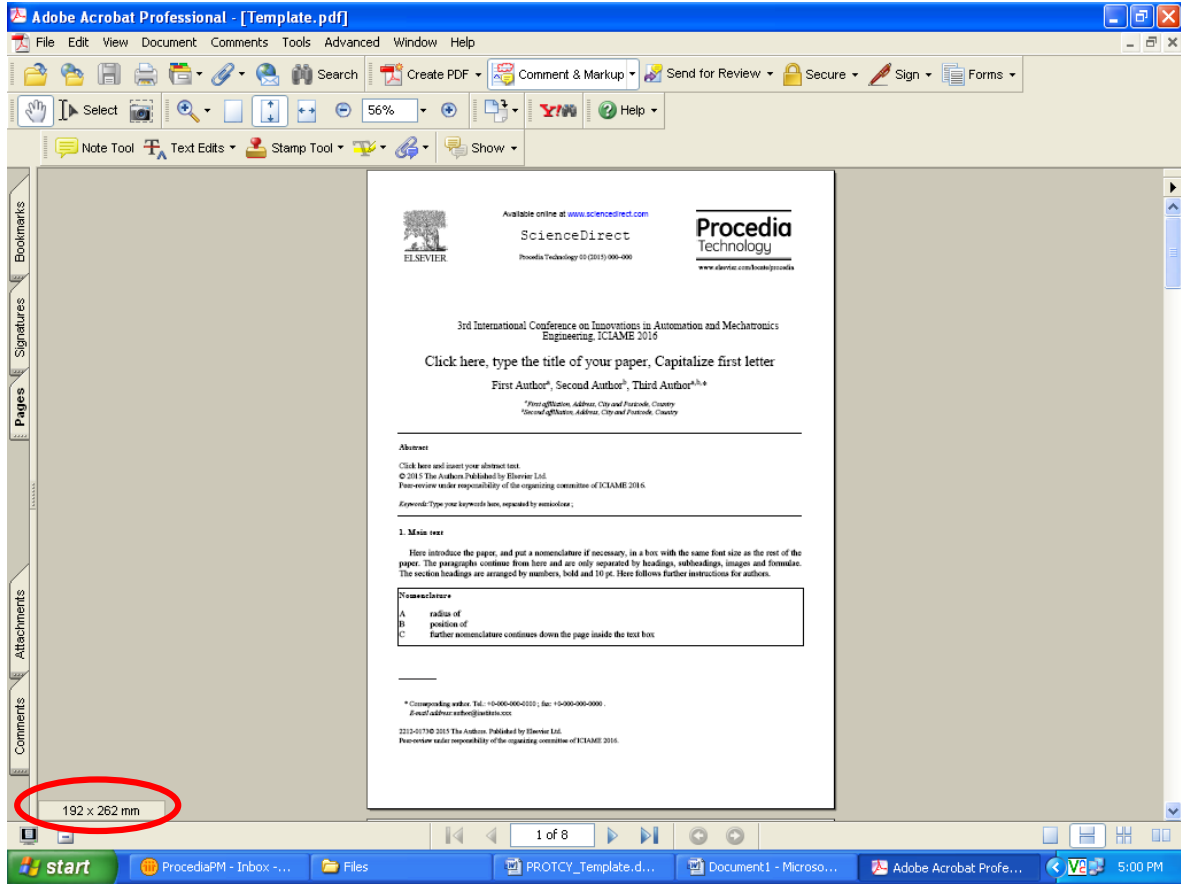

Click on OK to start processing the PDF creation.

The application will prompt to enter the filename to save the PDF.

The PDF created shall be in the required trim size – 192 X 262 mm for all titles except for PROCIR.

The Trim size of PROCIR is 210 X 297 mm.
